PHENIX HOTEL,
(Corner of Main and Mulberry Streets)
Lexington, Kentucky.

THE subscriber begs leave to inform his friends and the public generally, that he has leased this old and well known Hotel, in the city of Lexington, and that he has taken charge of the same.

The House has recently undergone a thorough renovation; the rooms are newly and neatly furnished; and still further improvements will be made to render it in all respects worthy of public patronage, and an agreeable home to those who may avail themselves of its privileges.

Intending to devote his own time and attention to the business, and to surround himself with competent assistants, together with faithful, polite and attentive servants, he gives the assurance to the public that no efforts on his part shall be wanting to make the old Phenix in all respects worthy of its reputation in its palmydest days.

Professions, however, are too easily and too frequently made to be of much value unless accompanied by corresponding acts, and he, therefore, only asks that the public may test the sincerity of his pledges by giving him a call. They will always find him ready to minister to their comforts in the best manner in his power.

Resolved by the General Assembly of the Commonwealth of Kentucky, that, anxious to restore our beloved country to concord, amity, and fraternal good feeling, and to avert, if possible, the further shedding of fraternal blood, and stay the desolating hand of civil war, which is carrying woe and desolation to so many stricken hearts, without stopping further to argue the question of unhappy differences of opinion now separating the sections of our once happy and glorious confederacy, we earnestly recommend a cessation of hostilities on the call of a National Convention, as the only sure means, in our judgment, whereby the Union can be restored.

And then the House adjourned.

[For the Commonwealth.]

Early Recollection.

By L. T.

In some things we beat our forefathers far away, but in others we have fallen much behind them. Two steamboats were built in Newport, just below where the hemp factory stands, in a very early day. I have no remembrance of any other mode of getting out the timbers and plank but with the old fashioned whip saw. I have an idea that it is the smallest number now living who ever saw a whip saw, much less the machinery in one in operation.

Same—Allowing further time to certain sheriffs to return their delinquent lists for the year 1861. [Allowed until first day of April next:] passed.

Same—Allowing late sheriffs and their deputies further time to collect arrears of fee bills and taxes due them: [Allowed two years from the passage of this act:] passed.

Same—for the benefit of the estate of James Ferguson, deceased: passed—yeas, 74; nays, 1.

Same—Asked to be discharged from the further consideration of a bill for the benefit of the estate of Edmund Bayne, a free man of color, late of Shelby county: rejected.

Mr. J. B. COCHRAN moved that the committee be directed to report the bill immediately: adopted.

Mr. TAYLOR then reported the bill. [Ad] ministrator of said Bayne to sell the estate, and appropriate the money to the support of said Bayne's wife, who is very old; at her death the remainder to be handed over to the Kentucky Colonization Society, to be used in transporting free negroes to Liberia.]

Mr. ROUSSEAU moved to strike out that part of the bill handing the remainder over

to the Colonization Society rejected, and the bill passed.

Mr. CHAMBERS—Education—In relation to school districts No. 4 and 21, in Campbell county: passed.

Mr. UNDERWOOD—Military Affairs—To appoint agents to guard the interests of discharged soldiers, and to enable them to collect their arrears of pay placed in the orders of the day.

Mr. CHANDLER—County Courts—To regularize the terms of the Edmonson quarterly courts, and to define the duties and powers of the jailer of said county: passed.

Mr. CLEVELAND—County Courts—Senate bill for the benefit of the jailer of McCracken county: passed.

Mr. HUSTON—Revised Statutes—Constituting the county judge and clerk, a board of supervisors of tax; reported the same, with the expression of opinion that it ought not to pass: rejected.

Same—for the benefit of George V. Morris, and Armstrong and Kiddwell, of Fleming county: reported the same, with the expression of opinion that it ought not to pass. Allows them to issue small notes of a less denomination than one dollar, to the amount of ten thousand dollars each, without incurring any of the penalties now inflicted by law: rejected.

RESOLUTIONS

Mr. MORROW, from the committee on the Library, reported the following resolution, which was adopted, viz:

Whereas, it is represented that there is a large stock of old Auditor's Reports, and other public documents, published for distribution, remaining undistributed—therefore,

One can scarcely realize that lumber was made in that slow way in this day of mule, gang and circular saws.

A man by the name of Palmer built the two boats I have referred to, and got out all of the timber and lumber in the way I have mentioned. In after years he erected a horse saw mill on the lot adjoining the one on Front street, where J. H. McG— subsequently built two three story brick dwelling houses.

The wheel on which the horses tramped was a perpendicular one and was, from my present recollection, at least fifty feet high. The horses were gotten on to the top of the wheel by an inclined bridge, which ran from a point back of the mill some distance to the top of the wheel. Eight horses were required to work the concern, and hard work it was for them.

Palmer thought when he was building it that he would save lumber so fast upon it he could supply Cincinnati, Newport, Covington, and the adjacent country. The mill, however, proved to be fit for little else than to kill blind horses, which were used upon it, and was soon abandoned. It stood for many years one of the many evidences seen of men's miscalculations, but, no doubt, gave an idea to some bright mechanical mind to improve in saw mills, and which came out afterwards in the shape of a patent right.

Not the wheel on which the horses tramped some enterprising individual put up a heavy frame building just below where the three story brick house stands, on the Cincinnati side of the river, near where the Newport ferryboat lands. The representation was that he intended to put horse or ox power into the concern, and with pumps and pipes supply Cincinnati with wholesome water from the Ohio river. The project was abandoned.

The idea of supplying Cincinnati with water to be pumped from the river by animal power, would not be realized now. But then Cincinnati was comparatively a small place, and few supposed she would ever become what she has in centuries, much less in about six years. At the period I refer to there were no good houses north of Ludlow street, scarcely any houses beyond fifth street, and from the lower corner of Main Fairchild's old corner) to where the old glass works stood, there were fifty stumps to one shanty.

What wonderful changes have been made in that region within half the ordinary life of man.

The old ferry flat and skiff which used to be sufficient to carry over the people and produce taken from one place to the other, have since given way to the horse boats, and then to steam ferryboats.

Three cities divided by two rivers have grown up to great plagues, filled with population, enterprising, and industrious, and that will equal in all the improvements those of any people of any cities of twice their age.

CEMENT ROOFING.

The Cheapest and most Durable Roofing in use.

IT IS FIRE AND WATER PROOF.

It can be applied to new and old Roofs of all kinds, steep or flat, and to SHINGLE Roofs without removing the shingles.

The Cost is only about One-third that of Tin, and it is Twice as Durable.

This article has been thoroughly tested in New York City and all parts of the United States, Canada, West Indies and Central and South America, on buildings of all kinds, such as FACTORIES, FOUNDRIES, CHURCHES, RAILROAD DEPOTS, CARS, and on PUBLIC BUILDINGS generally, GOVERNMENT BUILDINGS, &c., by the principal BUILDERS, ARCHITECTS and others, during the past four years, and has proved to be the CHEAPEST and MOST DURABLE ROOFING in use; it is in every respect A FIRE, WATER, WEATHER and TIME PROOF covering for ROOFS OF ALL KINDS.

This is the ONLY material manufactured in the United States which combines the very desirable properties of Elasticity and Durability, which are universally acknowledged to be possessed by GUTTA PERCHA AND INDIA RUBBER.

No Heat is required in making Application.

The expense of applying it is trifling, as an ordinary Roof can be covered and finished the same day.

IT CAN BE APPLIED BY ANY ONE, and when finished forms a perfectly FIRE PROOF surface, with an elastic body, which cannot be injured by HEAT, COLD or STORMS, SHRINKING OF ROOF BOARDS, nor any external action whatever.

Liquid Gutta Percha Cement,

For Coating Metals of all Kinds when exposed to the Action of the Weather, and

For Preserving and Repairing Metal Roofs of all kinds.

This is the ONLY COMPOSITION known which will successfully resist extreme changes of temperature, for a length of time, when applied to metals, to which it adheres firmly, forming a body, which is much less, and will LAST THREE TIMES AS LONG, and from its elasticity is not injured by the contraction and expansion of TIN and other METAL ROOFS, consequent upon sudden changes of the weather.

It will not CRACK in COLD OR RUN IN WARM WEATHER, and will not WASH OFF.

LEAKY TIN AND OTHER METAL ROOFS can be readily repaired with GUTTA PERCHA CEMENT, and prevented from further corrosion and leaking, thereby ensuring a perfectly WATERPROOF ROOF for many years.

This Cement is especially adapted for the preservation of IRON RAILINGS, STOVES, RANGES, SAVES, AGRICULTURAL IMPLEMENTS, &c., also for general manufacturers use.

GUTTA PERCHA CEMENT

For preserving and repairing TIN and other METAL Roofs of every description, from its great elasticity, is of the highest and most durable.

IT CAN BE APPLIED IN COLD OR RUN IN WARM WEATHER.

These materials are adapted to all purposes, and we are prepared to supply orders from any part of the country, at short notice, for GUTTA PERCHA ROOFING in rolls, ready prepared for use, and GUTTA PERCHA CEMENT in bags, with full printed directions for application.

THE GREAT FIRE AT TROY, N. Y.

The Phoenix of Hartford.

[Extracts from letters from S. L. Loomis, Esq., President of the Phoenix Insurance Company, of Hartford, Conn., to R. H. & M. Mag. H. General Agents, relative to the late serious conflagration at Troy.]

PHOENIX INSURANCE COMPANY,

Hartford, Conn., May 12, 1862.

"A big fire at Troy—we are in how much we don't know. May be \$20,000; but whatever it is, it will not fair as fast as adjuster, and no crying. Secretary K. Dugge went up there this morning. Mr. Wallace (adjuster) will be there to-morrow. They will make short work of it. The fire swept off about fifty acres of buildings—a sad calamity at Troy, but one no human force could have prevented. It is the first emergency we ever had, and such an one as gives more character to a Company than a hundred \$20,000 risks."

HARTFORD, May 12, 1862.

"OUR LOSSES may reach \$15,000 or \$20,000, but WHATEVER THEY ARE, THEY WILL ALL BE PAID BEFORE SATURDAY NIGHT IF THEY CAN BE ADJUSTED. It is such fires that try the backbone of Companies, and if they can stand up under the heavy load, it will give them great credit."

S. L. LOOMIS, President."
